# SO, WHAT IS... THE SCRATCH PROJECT ?

## INTRO

The Scratch Project is a collection of people who on the one hand provide fantastic services for their clients, delivering excellence and taking great pride in their work.

On the other hand, they want to work together, with other project partners to group fund local good causes. Funding a smaller individual cost for the local greater good.

As our partners go about their normal business, being excellent and trusted as a recommendation we aim to share the wide array of services our partners can deliver with their clients.

The thinking being that if these clients want additional work from a different service, delivered in a similar excellent, professional fashion, we can share the comprehensive list of services the Scratch Project can deliver. Safe in the knowledge that only the most conscientious and skilled professionals are included as service providers in the Scratch Project!

# OUR PARTNERS
